EUROTUBO® Leak proof screw cap containers

CE (IVD)

Specially designed for histology, they are provided with double internal security closure. Manufactured in translucent polypropylene with polyethylene ribbed yellow cap. They have moulded graduations in increments of 50 ml, and a ring in the upper part of the container that prevents dripping when decanting liquids. Its leakproof closure makes them ideal for liquid or solid sample storage.

Supplied uncapped. Other cap colours available upon request.

code	capacity ml	internal Ø mm	height mm	case quantity	case weight	case volume

202846	500	90	110	200	11.5	0.080
202847	1,000	111	137	100	11.4	0.080

ALLEGATO C

Security screw cap containers

CE (IVD)

Ultra clear polypropylene containers with yellow polyethylene cap. They have moulded-in graduations in ml.

Supplied uncapped with the caps and containers in the same box.

Ideal for the liquid samples pneumatic transport, including those that have phormaline, because they have a watertight closure.

The cap, with an innovative inner shape, has a double closure, (see the figure)

The base and the cap are ribbed so the handling with gloves is comfortable and reliable.

There is a ring in the upper part of the body, in order to avoid the dripping in case of liquid decanting.

For other cap colours (blue, orange, magenta), ask for the minimum ordering quantities.
